Humphrey Marshall on Plug Uglyism-Mr. Marsball, in his speech at the court hous n this city, while commenting upon the riot at the election in Washington City in 1857, remarked that if it had occurred in Louisville, and the maines had shot American citizens, the dead bodies of Democrats would be found langling from every lamp post in the city. Surely, 'Mr. Marshall can derive but little glory from that most disgraceful riot. Is it preteuded that Democrats had any agency in producing it? No! the Democrats had nothing to do with it-nor did the better portion of the American party of that city. But, bad, wick ed, depraved men from Baltimore caused all the difficulty, took possession of the polls, beat away unoffending and peaceable citizens, and deprived freemen of their rights. Let a fair and impartial vitness give a history of the transaction. We quote from the National Intelligencer, of June 2d, 857. It is an Old Line Whig paper that never has espoused the Democratic cause:

Of course we could not suppose that any arrange neuts had been made for the introduction of band of intrusive strangers from abroad to interfere with the full and free exercise of that very moder ate share of voting which falls to the lot of citizens in this district. By the earliest train yester day morning, and, it is believed, by the subsequent train, bands of ill looking men, mostly a year or two under age, with the generic and sug-gestive title of "Plug Uglies," arrived from Bul-ninore, crowding our side walks, and exhibiting, by their manner and speech, how well their em-ployers had calculated in bringing them on to do my work that was designed to be criminal au The first fruits of this villainous importation

were manifested between 9 and 10 o'clock at the lirst precinct of the fourth ward. There can be no doubt that all was quietly proceeding, the voters being drawn up in line, each patiently waiting his turn, when a sudden attack was made upon a unturalized citizen in the rank of voters, and was diversall such from the and an effort made to drive all such from the polls. In this onslunght, and the defense which was necessitated by it, several serious wounds were delivered as well upon native as naturalized itizens. Mr. Richard Owens, commis citizens. Mr. Richard Owens, commissioner of the ward, was badly shot in the arm as well as wounded in the head; Mr. F. A. Kloper struck in the forehead by a spent shot; Mr. Geo. D. Spencer severely bruised on the left cheek by a stone thrown by a man not four feet distant; Justice Goddard stricken in three places with brickbats; Justice Donn stoned; Officer II. Degges bruised on the chin; Capt. Baggott, Chief of Police, Police. man Birckhead, and other policemen were wound ed and driven from the field. The result of this was that naturalized citizens were compelled to ave limb and life by a general retirement from the scene; and it is matter of certainty that fear and digust at such doings have combined mate ially to diminish the vote that would have been

therwise polled. Can any other statement than this be consisten vitb the truth. The citizens were drawn up in line and voting. Now, is it pretended by any one that a Democrat, or Democrats, made an attack upon this "line." Will Mr. Marshall preleud for one moment that the naturalized citizeu, or citiens, made an attack upon this line or upon an Americau voter, or upon any one? No! the Naional Intelligencer says truthfully, "there can be o doubt that all was quietly proceeding, the voters being drawn up in line, each patiently waiting ais turn, when a sudden attack was made upon a uaturalized citizen in the rank of the voters, and an effort made to drive all such from the polls."-Now, this was not done by the respectable portion of the American party, but by lawless and degraded men from Baltimore who styled themselves

'Plug Uglies." We all know who the I'lug U'gly is. The unamed Camanche on his native plains, or the cruel Sepoy of India, is a Christian gentleman in contarison to him. By these monsters in human orm were citizens driven from the polls, many o hem maimed and injured for life-yea, more, they had possession of the polls, and with brass-knncks. revolvers, and loaded canon held possession of tered in such force that the authorities were pow rless to suppress their violence. The marines ess, to say, in an inflammatory speech upon th eve of our last election, that if it had occurred in ouisville every lamp post would have been graced by the dead body of a Democrat. What did Mr. Marshall mean by such language? Was he preparing his hearers for taking the polls, is they did here in the First Ward last Monday t looks like he had some such object in view, for

ail clique bullies did take the First Ward polls Suppressing the Vote at Shardine's. At Shardine's, or Oakland precinct, there is ecided Democratic majorily. Yet by violence and intimidation a large vote was suppressed .-It is needless to say they were Democratic votes or, of course, for years, no other voiers have sufered from this depredation by bullies upon the | He accompanted her to the vessel, and just as he elective franchise. For instance:-Alex. Hess was accompanied by three voters to the polls .organized hullies met these weu on the road and eat and drove them away. Jno. King was bringng up several voters; another gang of K. N. hul es, who were stationed on the road, at some disance, for the purpose, attacked, beat and bullied them from voting. Wm. Merriwether came up with three naturalized citizens who desired vote. One of these sconudrels accosted him at the door saying, "who do you vote for." He said, I vote Democratic." The bully responded, "if on do I'll whip you like hell." The men voted hreats were made against the Democratic judge he bullies couldn't intimidale him in his duty .-

nd to protect them from assault they were taken brough a back door and through a corn field .or his unswerving impartiality. Gov. Merriwethl'romiuent among These K. N. bullies were Herk Walker, Miller, (son of Buckner Miller) a man named Jones, and others who were imported for a pecial purpose. Norton, a magistrate, aud McCarty, a candidate, stood by and never interfered to prevent these outrages. It was their duty to prevent these outrages, but they failed to An Official Bully.

The man who threw the Irishman down the court house steps, which brought on the fight between Rousseau and Standeford, is Robert Biggs. This is the fellow who struck a man at the August election in 1857, who had been struck hy a watchman with brass knucks, and who has, for sometime, been a bully aud fighter at the Sixth Ward polls. He was elected inspector of weights and mea sures by the clique Influence-if not for his bullyism, no one knows for what, as he is of the worst possible character. He best another Irishman besides the one thrown down, earlier in the morning, at the Sixth ward polls.

Threatening a Voter. When Richard II. Rousseau went to vote on Monday, he was accosted by Dr. Standeford with ahuse and threats. The click of a dozen or more pistols being cocked, was instantly heard in the hands of the bullies, who were driving off voters from the Sixth Ward polls. This was before Standeford sought the quarrel with Capt. Rousseau.

The Groans of the Clique. Some rowdies, less respectable than Falstaff's soldiers, passed by our office on Monday evening from the Journal office, and groaned three times for the Courier. These groans were not giventhey were wrung with a thousand more from the jail clique. We do not consider them a compliment-they were strictly due.

That Halcyon. eed his balcyon now that Batman is to be jailer. Poor bird! we fear it will soon be in bad feather. The tree behind which Dr. Standeford sheltered

himself in his fight with Capt. Roussean, is now known as Fort Standeford. The Washington Union has had some teribly scatbing articles recently in reference to Senator Douglas and his course. In one of them the Union aptly says, "one traitor in the camp is

Allegory. In bygone times a disciple of Isaac Walton was nietly seated, like a toad, on the root of a widepreading tree-not on the borders of Amster. lam, Rotterdam, nor Hepidam ("where the lion roareth, and the whang doodle mourneth for the first born") but-by the side of a mill dam, watchug, with the patience of his worthy predecessor, for a "glorious nihble," and, much to his surprise, his anticipatious were soou realized. Just above the fishing dominions of our hero six preachers and a Mormon elder were bathing together in the nost unnatural harmony, each one anxious to cleanse himself of his sins and dirt. (It seems, in this case, that all were immersionists.) The corent of the stream being quite strong, one by one they were drifting towards a break in the dam, over which they all would have inevitably perished but for the assistance rendered by the lent lisherman. The first was a Catholic priest, who screamed at the top of his voice: Throw out our line with the cross and rosary attached to it, or I shall perish. It was promptly done, and he priest was rescued, with many acknowldgments of gratitude to the fisherman.

The next preacher who came floundering by was an Episcopalian, yelling loudly, "Save me oh! save me, good Mr. Fisherman, or I am gone throw out your line quickly, with our prayer book containing the 39th article, and the peua code". The fisherman accordingly did so, and saved him, with a good deal of tronble, but h eceived no thanks, like those offered by Next came the Presbyterian clergyman who

was nearly strangled and almost lifeless, exclain-ing vehemently. Hang a silver dollar quickly on the end of your line and throw it to me, or I shall soon siuk to rise no more!" The good fisher, man, though not overly llush, threw out the de-vired bait and brought him ashore, floundering like a captured cathish, but holding on, with the tenacity of death, to the glittering coin.

Then cause the Baptist preacher, almost exhausted, but could make out to articulate, of turgle his wishes to the fisherman ur line quickly, with a bottle to the end of it o sooner said than done; the fisherman seized a little bottle of the "oh, be joyful" from bis hasket,

e empty on reaching the shore.
Looking then up the stream for more subjects perceived a fat stall-fed Methodist preaches trungling manfully with the angry waters.

Throw out, for God's sake, your book and line with something fastened to the end of it by which can be pulled in. I am out of everything, the fisherman, but my old hat; others before you have nearly exhausted my resources—throw that lo me, cried the preacher, it is just the thing want; and by the old bat he was fortunately save

ergymau, and he also was safely pulled in, bu the dismay of the fisherman, he found the bot

rom a watery grave. Presently he spied a Campbellite, fluttering boutlikes wounded duck, and spouting water with the force of an artesian well. Throw out Alexauler Crmpbell's bible at the end of the hook and I have no such book in my library, but some old antiquated almanacs—will they do es, just as well for my safety as Campbell's bi le-make haste, be quick. The line was cast out of desired and the reverend gentleman soon haul ed into port. Just as he touched the shore he nuttered audibly, I firmly helieve that sprinkling s quite as safe as immersion. The kind lisherman by this time hegan to think it was time to go me, drive up the cows, and make fires for his wif and children, and leave the aquatic clergy to take interrupted by the wild and thrilling cries of the Mormon elder, save me, good Mr. fisherman, O'save me, or I shall go over the dam. I am too tired, said the fisherman; you may go over aud be damed, for all l care. A New Way to Obtain a Divorce.

Daniel Woodhouse against Maria Van Rensselae Toodhouse. An application was this morning made before Judge lugraham to discontinue the roccedings about to be taken by the defendant set aside a divorce which she alleges was fraudlently procured by the plaintiff. From affidavits resented at the hearing, it appears that the plainiff applied for a divorce from his wife on ground of her adultery with one Hathaway. The summons, when served upon the defendant, was, however, at the plaintiff's request, not opened by ner, and was subsequently burnt by him in her resence. The Vice President's Speech The Washington Union publishes Vice Presileut Breckinridge's Florence speech, and accompanies it with the following complimentary re-

The reader will be charmed with the admirable one and style of this speech, and its completeness is a defense of the Democratic party and a vindi sation of the present administration from the assaults of the opposition. Mr. Breckinridge is one of the ablest of our public men, and one of the most brilliant of our popular orators; and the speech which we now publish fully sustains his reputation for both ability and cloquence. of all the public men in the country, Mr. Breck inridge occupies probably a position most independent of the party politics of the hour. If the course of the administration or the party were distasteful to him, he, of all other Democrats in he country, is the one who could express his dis atisfaction at it, with the most absolute impun ty. If, on the other hand, the policy of the party or the conduct of the administration were ever so

greeable to him, he, of all other public men, is the one who could observe a discreet silence on the subject with the least censure and the least political damage to himself.

His speech, therefore, is the utterance of one of our most able and intellectual men, from a posiion of perfect impartiality as between different branches of the Democratic party, and of entire political independence before the country. As such, it is a speech worthy of the dispassionate perusal of every dispassionate patriot. As such, it is a valued and honorable testimonial to the honesty and fidelity of the administration, as it is also to the fairness and integrity of the policy which has been pursued by the Democratic party on the vexed question of Kansas.

From Nicaragua. SAN JUAN DEL NORTE, Monday, July 20, 1558. The departure of Gens. Martinez and Jerez. with a military force to fortify Castillo Viejo, has had the effect rather to confirm the people in their apprehensions of invasion than to calm their fears in relation to that terrible bugbear. These ru-mors neet one at every turn, and seem to be in-dustriously circulated by interested parties. At one time it will be reported that a large part has landed at San Juan del Sud, and at anothe time a bungo just arrived, brings news of a posi-tive landing at lilewfields, of Walker, at the head of 500 of the "Vandals of the North." The peo-ple of the North are thus continually scared by apparitions of fillibusters on the one hand, and annoyed by the petty tyranny of their leaders on the other. They desire, above all things, a set-tled form of government, and would hail with

delight the day that our Government would assume the control of their affairs.

As I informed you, Martinez arrived in person As I informed you, Martinez arrived in person at Castillo, and has taken up his position there with three hundred men. On the afternoon of their arrival (the 13th) De Baruel, the bosom friend of M. Belly, made a fiery and patriotic speech to the burefooted soldiers of Nicaragua. It was highly applauded. The treaty, as finally adopted, was amended in articles 15 and 16.—These modifications are, 1st, That the United States shall not pass troops over the Trausit without giving previous notice, and 2d, That in without giving previous notice, and 2d, That in the matter of the protection of the Transit ronte, the American Government shall not introduce troops, unless at the request of Nicaragua. Im-portant dispatches have been sent to Washington. by a special messenger, who will leave by the Granada. It is supposed that these dispatches will contain a reply of the Nicaraguan Government to the letter of Mr. Cass, on the subject of the Cass-Yrissari treaty. I forgot to mention that upon the receipt of news that the United States squadron was to be employed to bring this Government to terms, the courage of Martinez

Great excitement was produced in San Juan del Norte on receiving a copy of the Belly canal contract—not on account of the proposed canal, as that was long ago pronounced a chimera, but on account of the insulting language used by Martiners and Marain the statement of the insulting language used by Martiners and Marain the statement of the contract nez and Mora in their declarations against the United States appended to the contract. Intelli-gent Nicaraguaus inpute the defeat of the Cass Yrissari treaty to the influence of Belly when in was on the eve of a ratification in March last.-Belly no doubt had much to do in justigating th iostile course pursued by Nicaragua towards the United States. He constantly assured them of the sympathy and assistance of France. He told them that there would be a French fleet at Greylown, and that the pretensions of the "Vandals of the North were to be done away with." The pub-lic declarations of M. Belly in Nicaragua, I do not hesitate to say, were entirely at variance with his sentiments published in New York. He constant-ly expressed the greatest possible dislike for Americans. He may deny it, but his acts will stand against his words. He was, too, guilty of great incivility to our Minister, Gen. Lamar He tried. in addition to getting the canal grant, to ohtain in addition to getting the chara grant, to obtain one for building a railroad from Granada to Estero Real; in fact, be endeavored to monopolize all the public enterprises of the country. He made no show of any money, and many considered him as acting solcly with a view to cubarrass American policy in Nicaragua. He was not received with any particular attention by the people. Maximo Jerez is forenos I among the Nicaraguan Chiefs in his enlarged views and Democratic Anterican sympathies. He is about 40 years of

age, and has occupied a prominent position in Can-tral American polities for the last two years. He commenced his career as Secretary of Legation to Don Francisco Castillon to Paris in 1541. Returning, he attached himself to the Morazan par-, then somewhat depressed, General Cabanas, of flouduras, being at its head. Jerez became a po-litical pupil of Cabanas, and entered with enthu-siasm into the plan of re-establishing a Central American Confederation. For 15 years he has adhered with unswerving constancy to this project. In 1853, Fruto Chamorro was elected President, and among his tirst acts he banished Jerez and all the other leaders of the Liberal party from the country. Jerez now formed the plan of returning to Nicaragua, overthrowing the despotism of Cham-orro, and establishing the nucleus for the Central American Republic. Early in 1844 he returned with thirty or forty associates, and, by his conr age and perseverance, succeeded in turning the great portion of the people against Chamorro.— He beseiged him in Granada, but, not being able to dislodge him, determined to invite Walker to the country. He stood by Walker nutil the latter attempted to usurp the Presidency, when he turn-ed against him, and aided in expelling him from the country. He fought against Walker at Rivas, here he was twice wounde a brave man, a good Chief, and sympathizes strongly with the Americans.

The Niagara and the Agamemnon.

The London Times, while the Atlantic Telegraph cable was being shipped on board the Niagara and the Agamemnon, ridiculed, with some asperity the shape and sailing qualities of the Niagara. Davis, living at Burke's station Fairfax county, Va., aged about two years, while on a visit with its pareuts to the residence of its grandfather wandered into the woods, and bad been goue some time before its absence caused any ularm. A search was immediately instituted, and the whole neighborhood turned out, but nothing could be heard of the missing one. On Monday the search was renewed, and all the woods and fields for nules around were scoured, but all to no effect. Again on Tuesday the searchers started out, and about noon, as we learn from the Alexandria Scalinal, to the joy of all, a worthy German laborer restored the little wanderer safe to its mile and a half from its grandlathers in the woods, in a reclining position, apparently not at all alarmed at its situation. Its first inquiry was for "mamma." The only injury that the child had sustained was from being sundurnt. Its clothes were disfigured by blackberry stains, from which it no doubt received its sustenance during its long absence. There were several showers of rain while it was away, to all of which it must have

The City Election. The Democrats and true Americans may fee prond of last Monday's work, although it was not done as well as it should have been. Thomas Batman and John Robb are certainly elected. It is a pity that the whole Democratic ticket was not elected, but the way is now open for getting things right hereafter. The people nere will throw off their tyrants one by as they hereafter get a chance at them, and the prosperity of the city will follow

In our issue of vesterday, we stated that sev eral of the voting places had been stormed and taken by bullies set on by the jail elique. It is | N. majority. but fair to correct this, and say that only the First Ward polls were taken by force. In several of the other wards a good deal of noise, disturbance, intimidation, fighting and shooting occurred, but it did not amount to an absolute taking and holding of the voting places.

We have no correction, however, to make as to the First Ward. The voting places there were stormed and taken by two or three hundred bullies collected together from all parts of the city They roved over the ward like a band of savages, and by their shrieks and yells, to say nothing of their fists, slung-shots, bowie knives and revol vers, prevented Democratic votes from being taken after it was known at moon that the Democratic candidates were ahead in the city. These are tacts known to hundreds of eve-witnesses of both political parties, and the theme is too disgusting for further comment.

The jail clique candidates who were elected, with the exception of Megowan, (if there was a single exception, were elected by the taking of the First Ward polls. There were enough Demo cratic voters disfranchised in the First Ward alone 10 have kept the Democratic ticket ahead until night, as it was at noon. We don't know how the persons elected by such outrageous procredings will feel in offices gotten by palpable frand and violence, but we know how they ought 141 feel. They should be ashamed of their position. of themselves, and of those who elected them. All the salaries of the city ought not to induce as honest man to hold office under such circum-

Never in the history of a city did paid police officers act so shamefully. They did nothing but electioneer all day. They arrested those that they should not have arrested, and left at large those they should have arrested tor the peace and quiet of the city. Instead of preserving the peace, some of them were the lead ng rowdies of the day. They led on the rabel, and urged the bullies to deeds of violence and out rage. They made no attempt to secure a peaceful, a quiet, a fair and a lawful electron. Verily the people will remember them in the days that are to come, and in the loaves and fishes hereafter

Judge Johnston's Court. Last Monday morning, officers Vansant, Enlow and another watchman, without warrant, arrested a Democrat by the name of Ferguson, and lodged him in jail. So soon as the thing was known, Ferguson was bailed out, for he had done nothing and was not likely to do anything except to vote the Democratic ticket.

About the same time a German named Halterbaum swore ont a warrant against a jail clique K. N. named Reynolds, who had beaten him on Sunday. Reynolds was not served with the warrant nor bound over to keep the peace. He was left at large, and went off and gave Halterbaum

The Poll Books Violated The law requires that the Sheriff shall return the poll books sealed to the County Court Clerk's office, and that on the day after they are returned they shall be examined by the Clerk, the Sheriff and the County Judge, who shall give certificates to those elected. ceived of the affair, it appears that Harman, in company of Pat Dillon, went into the coffeehouse to drink, when another party, composed of eight or ten men, went into the coffee-house, and after some altercation, Jas. White, one of the party, proposed to fight Harman, who declined, saying he would fight him to-morrow.

Another Midnight Murder

Ilarman was induced by the proprietor of the louse to go into a back room, but on reappearing n the door was fired on by White. He fell at the first shot, and as he rose was shot again. Several more shots were then fired, and two, it is said, by larman. The unfortunate man received four wounds-one in the breast, penetrating the lungs, ne in the back, another in the right arm, and et another in the leg, At 121/2 o'clock last night, the chauces were that he would not survive un. basitail til this morning. Two Men Killed. We heard about 2 o'clock this morning, that two men, named John Gatton and John Alligator, were killed at the Six Mile House yesterday, by a man named Owens. Owing to the late hour at which we heard of the affair, we are unable to give any particulars.

The editor will now have to turn his entire atention to abolitionizing Kentucky. There is no ther hope for him, and it must be confessed that there is but little hope for him in such an underaking. He is an Abolitionist at heart, and can go at this work with more zeal and less hypocrisy han has characterized his advocacy of other meas res. If, however, he don't have to leave Kenncky before he gets through with his undertaking, re shall be greatly deceived.

We had the pleasure of a call last evening om Dr. B. Cloak, President of the "Emporium Real Estate and Maunfacturing Company," of Mound City, Illinois. We nderstand that the Board of Directors of the ompany have a meeting in the city to-day, when they will fix upon the time for the fall sales of lots, of which we will give the public due notice. The Board consists of the following gentlemen: M. Il. Rawlings, of Mound City; W. H. Stokes and Capt. Z. M. Sherley, of Louisville; F. Kennedy, of The Know Nothing Sheriff is elected by a small l'aris, Ky.; W. W. Metcalfe, of Bardstown; and A. V. S. Lindsey, of Nashville, Tenn.

The Recapitulation of the Vote-We had intended to give a recapitulation, this norning, of the vote of the city and county, but the non-return of the vote at Wood's precinct compels us to defer it until to-morrow. The table in another place shows the result in the county, excepting the precinct named. The race in the county is close between Pyles and Thruson, and with this exception, perhaps, the Demoerats carry the county.

We publish some election returns this norning, which indicate that Wood is elected Appellate Judge over Wheat by a majority that will not fall short of a thousand, and that may reach fifteen hundred. The Journal had better mind how it touches upon this subject, or it will induce us readers, (if any of them now have any confidence in it,) to lose money on Wheat as they did ou Fillmore. Cincinnati, Ohio.

THE subscribertakes this opportunity of greet, ing his old friends, patrons, and the public generally, and begs leave to state that the above magnificent establishment—architecturally and otherwise the dnest in America—will hencefort be conducted on a scale of eniarged liberality and accommodation worthy its widely-extended reputation.

In sympathy with the spirit of retrenchment and economy, rendered imperative by the stringency of the times, and pervading all classes, the price of daily board will from this date be reduced to Two Dollsrs.

The advantages of the Burnett lilonse over all other hotels in Cincinnati are manifold; among which are more liberal and elegant architecture, numerons and easily accessible offices of public convenience, the finest Diulng Room in America. The most liberal arrangement for taking meals, embracing nearly every hour in the twenty-four, great centralness of situation, and close proximity to all prominent places of business.

IN KENTUCKY CITY!

On Monday, 27th of September, 1858, YOUNG CITY. The Trustees, in announcing this sale, feel warranted a assuring the public that st no point in the West can here be found a better chance for safe and profitable

Investment.

KENTUCKY CITY

is iocated on the east bank of the Mississippl river, twenty miles below the month of the Ohlo river, at the first telegible highland, and in point of fact, being the mouth of the Ohlo river; surrounded by a high, teatthy, and fertile country, rapidly growing in w is it had population, with a salubrious climate, generou allowed and enlightened society. There wanted but o is further feature to make this the most commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That want is now fully met by the established system of

RAILROADS,

which has fixed Kentucky City as the center of a network of railroads stretching out and affording connections in all directions with the laterior and with the cities and lakes of the North and East, and ramifying through out the South and West.

That the public may not be led off by suspicions that this is a mere city upon paper, we request you to enquire—to come and see for yourselves.

See the Map—Kentucky City is the northern terminns of the Great Mobile and Ohlo Railroad—469 miles long. See also our railroad connection by Union City and along the Nashville and Northwesters Railroad via Parlis and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Ohlo Road to Memphis, about 160 miles. Also via Jackson, Tenn., Holly Springs, Canton and Jackson, Miss., to New Orleans, 500 miles. Also via Corinth, thence along the Memphis and Charleston Railroad to Tusenmbla, Huntsville, Chattanooga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fulton and Texas Railroad via Little Rock, through to Arkansas and Texas to the Pacific Ocean. Also, by the Iron Mountain Railroad to St. Louis, 150 iles. Also by the

STEAM FERRY PACKETS olying to and iro with Cairo and the Illinois Central Raiiroad to Chicago and the whole northwest. Intelligent, enterprising and practical men who will come and see and investigate in person, will be convinced that the extraordinary commercial advantages and facilities of raiiroad and steamboat trapsportation possessed by Kentucky Gity secures to this point requisites for maunfacturing and commercial purposes, which must, of necessity, cause it speedly to become the great intermediate city between the NORTH and the SOUTH, at which the productions and manufactures of each section will be concentrated for sale, or to be exchanged for those of the other. The Hon. Post-Master General, in a recent report rays: "No man can look at the map of this country without his eye finally resting on the mouth of the Ohis the center of population and commerce of the United States."

States."

The sale is to be made without reserve and in good faith, and there will always be a reliable gentleman or the ground whose pleasure and duty it will be to give all needful information, and answer all written or oral in terrogatories. Then let no one permit himself to be led nce Monday, September 27th, alloue until all the Lots, numbering np-

The proprietor, in calling the attention of the public to his preparation, does so with a feeling of the utmost con-dence in its virtues and adaptation, o the diseases for thigh it is recommended. which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparation extant. The testimony in its favor given by the most prominent and well-known Physicians and individuals in all parts of the country is immense, and so careful perusal of the Aimanac, published annually by the proprietor, and to be had gratts of any of his Agents, sannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

THE RIVER had the appearance of rising a little last evening, with three feet six inches water in the canal by the mark, which is about 4½ feet water for steamboats. The weather was warm and cloudy, with a shower early in the morning, and another in the evening.

On Sunday night late, and Monday morning,

there were heavy rains in the vicinity of Pitts-burgh and Cincinnati, which have caused a short rise. At Pittsburgh, yesterday at noon, there were rising four feet water in the channel, which would be sufficient to let out the propeller fleet which was aground on bars below. At Cincinnati, the storm was very violent, and the rain fell in torrents for three hours. The rain caused Little Miami, Licking, and Millcreek to pour out a freshet, but by reports of Poland, from above, and Resolute below, we learn that outside of a circuit of 60 miles, there were only showers. The river had risen two feet, but it was falling again at that point yesterday, and unless we have more rain, it cannot make much of a rise here

Dr. J. Will.LAMS, Chemist and Pharmaceutist, after
studying closely the practice of Drs. Abernethy and J.

and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from
South America, certain roots and berbs, from which he
prepared an 'Elixir,' which, after eighteen years' use in
private practice, has proved itself more efficacious in the
cure of Dyspepsia, than any medicine that has ever been

Having submitted it, with an explanation of its components, to a number of Physicians of Philadelphia, among

Testimony of H. N. Sperry, who was abundaned specificational discussion up to die.

Dr. J. Williams—Dear Sir: For lifteen years previons to 1844, I suffered so unsen from Dyspepsia, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical aid was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and from the time I began taking it I gradually improved, till was completely restored to health. The dreadful suffering I indured from Dyspepsia I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death. I continue now in the enjoyment of excellent health.
